Dear Parents and Carers,

Here is an overview of some of the learning that will be going on in the Green Class during the Autumn Term. Our topic this term is based on the story 'Sharing a Shell. To make this relevant to our new pupils, we will be exploring our own homes and who we live with. We will be learning the Makaton signs for 'home and our family members. To extend this we will be exploring our new school environment and meeting the people who help us in school. This will underpin the Early Years Foundation Stage curriculum around 'Sense of Self' under Personal, social and emotional development.

To support our topic this term, we would be grateful if you can send a photo of your home and who you live with. Many thanks.

Kind Regards from the Green Class Team: Penny Amy Rebecca Steph and Anna
